Patient Preferences

Home Ribbon ► Patient Register

The patient preferences section opens up in a separate web based window, and is accessed from the Patient Register (F3) screen. For this icon to be available, you must ensure the patients NHI has been validated. For more information on how to validate an NHI see the '**Validating NHI's'** user guide.

Figure 2 – Patient Preferences screen

Patient Preferences can be collected from the patient during a consultation or initial enrolment. For a minor/child the parent or legal guardian is required to answer the questions on behalf of them.

If you select 'Yes' for question one (you would NOT like to complete the survey) the following two questions are greyed out.

Once you click the 'Save' button, the following message will appear:

Figure 3 – Patient Preferences Saved Message screen

If the patient already has their preferences recorded, you will have the option to update those preferences and save them accordingly.
